SUBJECT: MOZAMBIQUE: POST ASSESSMENT OF PROPOSED RESEARCH PROJECT
NO. HD055841 02 INVOLVING A FOREIGN INSTITUTION

Ref: Secstate 19724

11. Post concurs that the research question in reftel is both important and relevant, and the proposed institution, HAI (University of Washington) is a well-established organization in Mozambique capable of carrying out this research project. However, post would urge that the investigators proposed in the project work with Mozambican researchers, either in the Ministry of Health or Mozambican National Institute of Health, as well as ensure that this project is evaluated and approved by the Mozambican government ethics committee, and not just by the University of Washington ethics committee.
